On

We for Environment

World Environment Day

5th June, 2021

“Nature is painting for us, day after day, pictures of infinite beauty.”

- John Ruskin

ORGANIZED BY

Government College Dhaliara, District Kangra, Himachal Pradesh

in collaboration with

Kalp Foundation,
Mandi

Pratibha Spandan,
Shimla

Conservation is a state of harmony between men and land

-Aldo Leopold

The Idea

The main idea behind celebrating World Environment Day is to realize the importance of the environment and to make people aware that nature should not be taken for granted. According to the UN, this day gives us with a chance to widen our viewpoint and act as responsible individuals in preserving the environment. The day is celebrated across the globe to respect and recognize all that the environment has provided us. The theme for **World Environment Day 2021** is **'Ecosystem Restoration'**. This day will also see the launch of the UN Decade on Ecosystem Restoration. Government College Dhaliara, District Kangra, Himachal Pradesh in collaboration with Kalp Foundation, Mandi and Pratibha Spandan, Shimla wishes to organize a seminar on this occasion. World Environment Day is meant to generate awareness about the significance of nature. The United Nations Assembly initiated its celebration in the year 1972, on the first day of the Stockholm Conference on the human environment. In 1974, it was celebrated with the theme *'Only One Earth'*. Since then, various host countries have been celebrating it.
